WORKERS DESERVE MORE!

Democratic Socialists of America

Real change requires not only small reforms but organizing to fundamentally take power from the elites who run our economy and both major U.S. political parties. We can accomplish this only by building a mass working class solidarity movement.

WHAT IS DEMOCRATIC SOCIALISM?

Democracy should extend beyond the vote. As DSA, we fight to democratize our **workplaces** and our **economy**. We believe in a strong labor movement and in elected representatives who put **people before profits**.

Democratic socialists fight for a world where working people are empowered and resources and opportunities are shared fairly. Through collective action and systemic change, we aim to create a fairer, better world for everyone.

SOLIDARITY FOREVER

We fight to overturn a capitalist system wherein an elite class hoard the wealth of millions. As democratic socialists, we envision a society where everyone can access essential needs like **food**, **healthcare**, **housing**, **education**, **good jobs**, and **leisure**. These are not privileges but basic needs.

GREEN NEW DEAL

Unlike our corporate and political adversaries, we insist upon global peace, environmental sustainability, and freedom from military interventions and economic exploitation. Our vision includes ending systemic oppression such as mass incarceration, police brutality, gender violence and discrimination, and deportations.
